Important Information

Dear Customer

Please be advised that SIX Swiss Exchange has decided to postpone the SMR3 Production release, which was originally scheduled to go live on Monday, 5 November 2012. Please see the following link: http://www.six-swiss-exchange.com/swx_messages/online/swx_message_201211021539_de.pdf

Consequently the SIX Exfeed SMF 9.0 release has to be postponed as well, i.e. the current SMF version 8.0a will remain in production.

We apologize for the short notice and any inconvenience caused.

Could you please confirm today that you will not implement SMF version 9.0 over the weekend.

We thank you for your understanding.
