With the new Debit Mastercard and Visa Debit card generation, your customers can now also pay online. With the 3-D Secure 2.0 authentication, SIX offers the most modern security standard.

With Debit Mastercard and Visa Debit, SIX launches two new products offering broad implementation possibilities. The introduction enables customers to carry out new business transactions. For example, card issuers benefit from increasing transaction volumes for debit cards. SIX also offers complementary e-commerce services (e-commerce support and debiX app) which are coordinated with such introduction. The new card generation can be used all over the world, wherever Mastercard and Visa are accepted.

Benefits for your customers
New implementation possibilities
In addition to the standard benefits and card use in e-commerce, Debit Mastercard and Visa Debit can also be used for bookings and payments in hotels or car rentals worldwide.

Secure online payment
Offer your customers the highest possible level of security. With 3-D Secure 2.0, SIX stands for the most modern security standard, with the customer authentication fully integrated into the sales process. Card holders can confirm their payments via an app (debiX or in the bank's own app).

International acceptance
Debit Mastercard and Visa Debit are accepted at over 45 million points of sale.

Cash withdrawal
Withdrawing cash worldwide. And thanks to the new National Cash Scheme with access to account information at all ATMs in Switzerland.

Contactless payment
All new debit cards are equipped with a contactless function.

Mobile payment
Cardholders can store their debit card in wallets and pay quickly and easily with their smartphone. SIX offers digital solutions and know-how.
SIX is already processing over 10 million debit cards, making it the largest technology partner for banks in Switzerland and Liechtenstein. For many years, over 100 banks have relied on the expertise, competencies and security of SIX. Moreover, SIX is constantly expanding its portfolio in order to translate digitization into customer value and customer experience.

### Process the new debit cards with SIX

#### Your benefits

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less expense</td>
<td>To provide the necessary Debit Online, Otis and KTB infrastructure, SIX uses the existing interfaces.</td>
</tr>
<tr>
<td>Operational flexibility</td>
<td>With the issuance of the new generation of debit cards, there is a need for various operational services. SIX offers complex modular services. Choose from the modules tailored to your needs.</td>
</tr>
<tr>
<td>Economies of scale</td>
<td>SIX processes debit cards for ca. 100 banks. This results in economies of scale and synergies passed on by SIX to banks.</td>
</tr>
<tr>
<td>Optimal pricing model</td>
<td>The interchange resulting from card use is passed on in full by SIX to the banks.</td>
</tr>
<tr>
<td>Transparency of transactions</td>
<td>The systems of SIX enable providing efficient customer service. All transaction data can be viewed and thus customer inquiries can be answered quickly and in the best possible way.</td>
</tr>
<tr>
<td>Sovereignty over customer relation</td>
<td>SIX ensures in the background that you as a bank manage customer interfaces along the entire value creation chain and that the debit card services are available at all times and in the agreed quality.</td>
</tr>
