

Using Debit Cards Online

Debit Products and Services of SIX

With Debit Mastercard and Visa Debit your customers can pay online and store their cards in digital wallets. Thanks to 3-D Secure authentication, SIX offers the most advanced security standard.

SIX offers two products with extended usage options: Debit Mastercard and Visa Debit. SIX also provides additional **e-commerce services**, such as support and the debiX+ app.

Benefits for Your Customers

Extensive range of uses

In addition to standard benefits and e-commerce use, the cards can be used for bookings and payments at hotels and car rentals worldwide.

Secure Online Payment

Offer your customers the highest possible level of security with 3-D Secure, SIX uses the latest security standard that fully integrates customer authentication into the sales process. Cardholders can securely and conveniently confirm payments via the app (debiX+ or their bank's app).

International Acceptance

Debit cards can be used at over 45 million points of sale. They also enable cash withdrawals around the globe.

Contactless Payment

All debit cards are equipped with a contactless function.

Mobile Payment

Cardholders can store their debit card in wallets and pay quickly and easily with their smartphone. SIX offers digital solutions and the corresponding expertise.

SIX already processes around 10 million debit cards, establishing itself as the leading technology partner for banks in Switzerland and Liechtenstein. For years, over 100 financial institutions have relied on SIX's expertise, competence, and security. Moreover, SIX continuously expands its portfolio to provide customers with the benefits and experiences of digitalization.

Process Your Debit Cards via SIX! Your benefits		
	Less efforts	SIX uses the existing "Debit Online," "Otis," and "KTB" interfaces to provide the necessary infrastructure. SIX is actively making more functions available via modern channels, such as APIs and MQ.
	Operational flexibility	The issuance of Debit Mastercard and Visa Debit has created a need for various operational services. SIX offers a comprehensive range of services. Select the modules that best suit your needs.
	Economies of scale	SIX processes debit cards for approximately 100 banks. These economies of scale and synergies are passed on to the banks.
	Optimal pricing model	SIX passes on the full interchange fees resulting from card use to the banks.
	Transparency of transactions	SIX systems provide efficient customer service by making all transaction data accessible. This allows employees to respond quickly and effectively to customer inquiries.
	Ownership of the customer relationship	SIX ensures in the background that you as a bank manage customer interfaces along the entire value chain and that debit card services always meet agreed-upon quality standards.
