

Liquid, Cost-Effective and Transparent

Passive financial products: The diverse and comprehensive family of passive financial products available on SIX Swiss Exchange offers a solution for all investment needs.

Whether exchange traded index funds (ETFs) or tracker certificates, passive financial products open up new markets and strategies for investors. In particular, they make it possible to participate in the price performance of equity markets, sectors and regions, and also of commodities, bonds and currencies. The diverse and

comprehensive family of passive financial products available on SIX offers a solution for all investment needs. Despite the huge diversity, passive financial products from SIX have one key factor in common: the liquid, cost-effective and transparent stock exchange trading.
