

## **Rajul Mittal**

Head of Sustainable Finance  
Synechron

Rajul Mittal has worked in the heart of financial institutions for over 12 years now spanning across banks, pension funds and asset managers. He has been championing the cause of sustainability at Synechron and leading our vision to come up with solutions for our clients to accelerate the sustainability shift in a timely and efficient way.

Rajul's first tryst with sustainability came when he worked on an initiative called "Socialway". Socialway started in 2006 in Bangalore, India. It was envisioned to be a community sharing platform for physical household items and in turn reducing the carbon footprint.

Rajul completed his MBA from Nyenrode Business University, The Netherlands. On a personal note, he resides in the beautiful city of Utrecht and is an avid sports fan. On a personal front Rajul is a proponent of responsible consumption i.e., being a vegetarian, solar panels on the roof to driving an EV.
