- N/A

#### Hypertlink to the information on ESG factors for each benchmark:

- N/A

#### a) Data input.

1. **(i) Describe whether the data are reported, modelled or sourced internally or externally.**
2. **(ii) Where the data are reported, modelled or sourced externally, please name the third party data provider.**

Sustainalytics is the ESG-provider for SIX30SRIGI.

Sustainalytics is a leading independent ESG and corporate governance research, ratings and analytics firm that support investors around the world with the development and implementation of responsible investment strategies.

In particular, this index uses the following ESG Products: Global Standards Screening, and Product Involvement.

For details on Sustainalytics ESG Research’s full suite of ESG products, please refer to: [http://www.sustainalytics.com](http://www.sustainalytics.com)

**Data Source:**

Externally sourced through Sustainalytics’ ESG Research.

Sustainalytics’ research process involves the collection and analysis of information made available by third parties, including civil society, corporate, government, industry association, investor, media and regulatory sources. Sustainalytics also uses 3rd party data providers about which information is available at:
### b) Verification and quality of data.
Describe how data are verified and how the quality of those data is ensured.

#### Sustainalytics’ Quality Approach

**Company Research:**
- Continuous improvement and maintenance of quality and research standards;
- Companies are contacted to verify allegations that are relevant in Sustainalytics’ Global Standards Screening methodology and their response is taken into consideration, and whenever relevant included;
- Quality reviews of ESG assessments before publication;
  - For Sustainalytics’ Global Standards Screening, proposals for assessment changes are reviewed by an internal oversight body. If the proposal is approved, a written report is drafted according to the GSS guidelines. Before a Watchlist or Non-Compliant status for an issue is published, a quality and editorial review is conducted on the report and the sources used therein.

**Data and deliverable management:**
- Quality and reliability of Sustainalytics’ Covered Company and identifier data through automated quality assurance;
- Quality and reliability of Sustainalytics’ proprietary (i.e. research) data through automated quality assurance, prior to publication;
- Quality and reliability of standard deliverables through end-of-gate quality assurance process.
- Quality and reliability of custom client deliverables through end-of-gate quality assurance processes (automated and manual):
  - Monitoring and investigating ESG score fluctuations and their root causes using automated tools.

**Update cycle:**
- Continuous monitoring is conducted as incidents occur and feed into updates of Sustainalytics’ Global Standards Screening reports.
Quarterly updates to Sustainalytics' Global Standards Screening reports.

c) Reference standards
Describe the international standards used in the benchmark methodology.

| Date on which information has been last updated and reason for the update: | 2021-08-11: layout update and update of item 7. |

The methodology behind Sustainalytics’ Global Standards Screening is based on the following international instruments:
- UN Global Compact Principles
- UN Guiding Principles on Business and Human Rights
- OECD Guidelines for Multinational Enterprises
- International conventions, declarations and standards
