

SIX Tax Score®

Leverage financial instrument tax data for suitability purposes

Financial advisors increasingly have to demonstrate the value that intelligent professional advice gives to investors. With SIX Tax Score® you can now gain a unique competitive advantage by helping your investors to understand the tax implications and make tax intelligent decisions. This is achieved through the delivery of superior tax data at financial instrument level.

The Tax Data Challenge

Client Advisors need enhanced and enriched tax data on instrument level that are taking into account their clients' profile as well as their investment portfolio structure in order to make tax intelligent investment decisions and optimize their portfolios.

These requirements can become hard to meet with current tax rules mostly available in the form of heavy tax manuals provided by consulting tax experts. Developing know-how on a generic tax implications is a time-consuming process that Client Advisors cannot always afford to go through. Finally, the complexity surrounding the tax rules can quickly lead to misinterpretation.

The SIX Solution

SIX Tax Score® enriches your investment advice with complete and updated tax information provided in a computer executable format. Gain valuable insight on the tax implications of each financial product per tax domicile through the use of an easily interpretable tax score and tax data attributes and meet the rising expectations of your private investors.

Including tax information in the advisory process will not only translate into a better return after tax for your end client, but also enable you to provide a truly holistic investment advice.

By using SIX Tax Score® you can differentiate yourself from other Wealth Advisors and grow your asset under management and client retention capabilities.
