# Reference Data Service (RDS)

Reference Data Service (RDS): The RDS is designed to allow market participants to synchronise their internal databases with the daily traded instruments of the Exchange (e.g. for statistical evaluation, data mining etc.) in readiness of the following morning. Reference data for structured products (certificates, investment and leverage products) is currently available on request in the Closed User Group section of the SIX Swiss Exchange Data Services Website. Professional market-data distributors may not download, receive, re-distribute, re-sell or sub-license the Information on the website without SIX Exfeed AG's prior written consent. This includes, but is not limited to, reference-data deliveries via CONNEXOR, email and file transfer via FTP, SFTP, XML etc. Except where explicitly stated otherwise, all Information provided to distributors by SIX Exfeed AG and other SIX Swiss Exchange AG companies is subject to specific terms and conditions of the Agreement

For the Redistribution of reference data and key figures for an unlimited number of Non-Professional Users in combination with any Unit of Count for Non-Professional Users, the fee liability for reference data equally applies if used with delayed (15") or end of day (EOD) market data, except for the following free attributes [FieldID]: Ticker symbol, the first/last trading day, the title short text, and the trading currency. And the following reference data fields: ISIN.

Please request the MDDX Data Dictionary for scope of delivery of reference and key figures in MDDX.

# C)   Non-Display Information Usage Fees

Standard Non-Display Information Usage ('NDIU') fees apply per category of usage and are charged cumulatively, except for the Enterprise License, which covers all three standard categories:

**Standard Non-Display Usage**

Category 1: Trading-Based Activity

Category 2: Derived Data

Category 3: Index Calculation & Distribution

**CFD Data Usage**

CFD Data Usage is not included in this Enterprise License. It must be reported on Subscribers and/or White Labeling Partner level. Alternatively, an Enterprise License for CFD Data Usage is available.

For further details, please refer to the NDIU Guidance Notes & FAQ (https://www.six-group.com/en/market-data/data-services.html#scrollTo=guidance-notes-and-faq).

## Category I: Trading-Based Activity

Trading-Based Activities are licensed based on the intended usage by the customer. Each User Type includes the User Type(s) numbered higher (1 includes 2, includes 3). The license must be purchased for the highest applying User Type and counts cumulatively for the previous User Types.

# CFD Data Usage

CFD Data Usage Fees are charged for the right to Use Real-time Data, in whole or in part, for the calculation and/or provision of prices for trading in contracts for difference (CFDs) tradable on a CFD platform.

Depending on the scope of CFD use the CFD Use Fees can include a Basic CFD License Fee, CFD Subscriber Fees, and CFD White Label Fees.

The Basic CFD License Fee shall apply if the respective Information Product is used within a CFD Data Usage and includes the right to provide the calculated prices to less than 500 Users or up to 5 White Labelling Partners.

In addition to the Basic License Fees a component for the number of Subscribers has to be paid if the calculated prices within a CFD Data Usage are provided to more than 500 Subscribers or 5 White Labelling Partners.
