Dear Customer

Please be advised that SIX Swiss Exchange has decided to postpone the SMR3 Production release, which was originally scheduled to go live on Monday, 5 November 2012. Please see the following link: [http://www.six-swiss-exchange.com/swx\\_messages/online/swx\\_message\\_201211021539\\_de.pdf](http://www.six-swiss-exchange.com/swx_messages/online/swx_message_201211021539_de.pdf)

**Consequently the SIX Exfeed SMF 9.0 release has to be postponed as well, i.e. the current SMF version 8.0a will remain in production.**

We apologize for the short notice and any inconvenience caused.

Could you please confirm today that you will **not** implement SMF version 9.0 over the weekend.

We thank you for your understanding.
