Important Information 

Dear Vendors

This morning the Swiss Market Feed (SMF) system experienced a technical problem in the start of business day procedure. This resulted in distribution of information from yesterday, which also had an impact on SIX Swiss Exchange Indices. By resetting the Swiss Index system and consequently the SMF application the problems have been solved.

The SMF was up and running again as of 14:20 (CET) and the full data content of today, 13 December 2013, was disseminated correctly.

Please accept our apologies for the inconvenience caused.

Werner Bürki
Managing Director

Ottavio Gisler
Head Market Data Services
