Date 07.09.2016

Action required 

Summary

SMF System S7 (secondary site, Failover & Membertest) move has now been completed as of the last weekend (03 to 04 September 2016)

- The SMF System S7 has been moved from Data Center - Schlieren to the new Data Center - Lupfig.
- Vendors are recommended to perform SMF connectivity tests

This message concerns:

Markets SIX Swiss Exchange Six Structured Products Exchange
 SIX Liquidnet Services BX Berne Exchange

Interfaces SMF MDI IMI

Dear Vendor

Based on the [SIX Exfeed message no 04/2016](#), we hereby confirm that the physical SMF System S7 (secondary site, Failover & Membertest) move has taken place over the **weekend 3 to 4 September 2016**.

It is highly recommended that all vendors test their SMF connectivity to the S7 System (153.46.70.81) now that the move has been completed.

Vendor Action:

S7 - SMF System	IP Address	Port (nn=own Feed ID)	Market Data content
Failover / Backup	153.46.70.81	50nn0	Equal Production (different sequence number)
Member Test	153.46.70.81	50nn	Test data (SwissAtMid, SMF Specs v9.2)

Before we deactivate SMF connection ports from the OLD Data Center in Schlieren, we need your confirmation of readiness to connect the SMF S7 (Disaster-Failover/Test System) over the new line to the Data Center in Lupfig with an email to SIX Exfeed Helpdesk: data-services@six-swiss-exchange.com

If you have any questions or for support regarding to connect Data Center Lupfig, please contact following Support Members:
