-------------------------------	---	------------------------------

Dear Vendor

As announced in [SIX Exfeed Message No. 04/2018](#) on 14 February 2018, please find below some information about the availability of the SMF after the going-live of the MDDX in late October 2017.

SMF Decommissioning

As planned, the SMF will be decommissioned on Friday, 29 June 2018 – 22:30 (CEST) EOB, i.e. this is also the end of the extensive parallel run with the MDDX. Vendors are asked to confirm MDDX readiness before the SMF decommissioning takes place.

Please note: We would like to remind you that the vendor owns and is solely responsible for the management and operation of the communication infrastructure (*routers, leased line*) from their sites to the dedicated SMF Ethernet RJ45 port(s). SIX Exfeed recommends you to plan your SMF infrastructure decommissioning including cancelation of connectivity to avoid additional carrier costs.

For questions, please do not hesitate to contact your Local Support Center or the SIX Exfeed Help Desk.

Best regards
SIX Exfeed Ltd
