Pages 1

Date 12.10.2018

Important Information 

This message concerns:

Markets: SIX Swiss Exchange Six Structured Products Exchange

Interfaces: MDDX MDI IMI

Dear Vendor,

This message provides important information concerning the replacement of the Market Data Interface (MDI).

As communicated in the [SIX Exfeed Message 12/2018](#), the new version of SIX MDDX MoldUDP64 multicast protocol is the replacement for the MDI which will be decommissioned at the end of June 2019.

We would like to remind you that the SIX MDDX Point-to-Point (SoupBinTCP) connection already disseminates the full range of Pre- and Post-Trade market data.

Furthermore, we would like to make you aware that no action is required for vendors not interested in the MDDX MoldUDP64 multicast protocol.

 SIX MDDX MoldUDP64 is live in Membertest since 23 August 2018 and will be available in Production as of Monday, 29 October 2018.

If you have any questions related to the changes please contact your Local Support Center for technical and SIX Exfeed Customer Support for business support.

Yours sincerely

SIX Exfeed Ltd
