For Information

This message concerns:

Markets:	☐ SIX Swiss Exchange	☒ BME
Interfaces:	☐ BME Data Feed	☒ SIX MDDX

Dear Vendor,
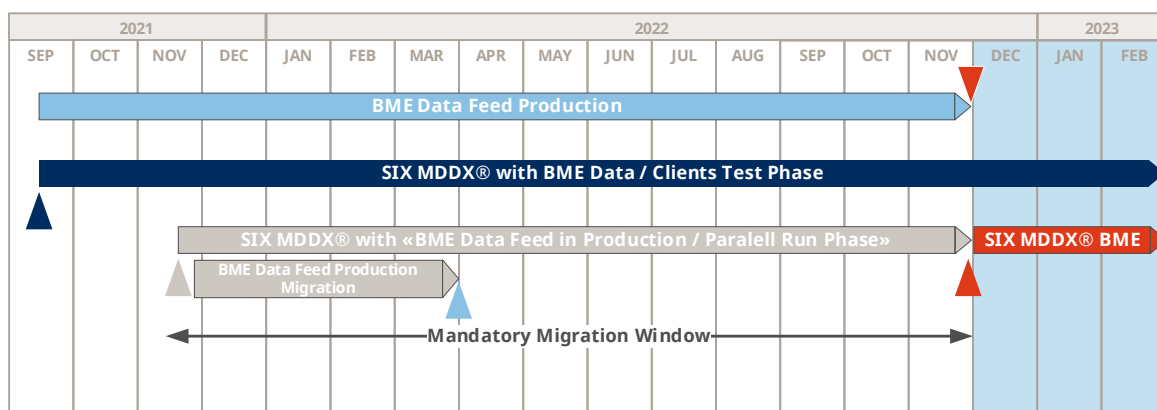

As announced in the SIX Exfeed Message No. 15/2021, we have integrated BME Exchange data in the SIX MDDX Production environment on 24 November 2021.

Equity and Index data packages are available in the production environment during this first phase. They have been available in the Membertest environment since 22 September 2021. The final migration phase covering the remaining BME Data Feed content will be completed during Q1 2022.

Please note that the parallel run of "BME Data Feed" and SIX MDDX® with the same BME data content will last until November 2022.

We request clients to complete their test and migration activities before the end of the parallel run phase. Please take note that an extension of the parallel phase won't be possible.

Attached you will find the updated version of the "FAQ" document.
