Information 

In [Message no. 43/2011 of August 3, 2011](#), we announced the launch of SWXess Maintenance Release 1.2 (SMR 1.2) into production effective October 3.

Due to only recently-identified errors in post-trade processing on the SWXess platform, SIX Swiss Exchange has decided to postpone the launch of SMR 1.2 for a few weeks.

As a result, none of the adjustments described in Message 43/2011 will be active as of October 3. They will not become effective until the new launch date, which will be determined and publicized shortly.

We regret the inconvenience associated with such a short-term announcement, and thank you for your understanding.
