### Content of this message:

- The enhancement to support order and quote persistency upon disconnect was introduced in the production environment on **2 March 2015**.
- CTI for volatile orders and quotes will be decommissioned as of **30 June 2015**.

In [SIX Swiss Exchange message no. 50/2014](#), SIX Swiss Exchange announced its intention to decommission the Capacity Trading Interface (CTI) for proprietary trading and market making for both On Book Matcher (OBM) partitions by 30 June 2015.

SIX Swiss Exchange is issuing this message to remind all participants who are still using the Capacity Trading Interface (CTI) that they should migrate to the new "OUCH Trading Interface" (OTI) for proprietary trading and «Quote Trading Interface» (QTI) for market making. All participants are required to migrate to the new OUCH protocol-based interfaces.

Further information on the migration from CTI to OTI or QTI is available in [SIX Swiss Exchange message no. 50/2014](#). The form needed to enable users for OTI and QTI can be accessed from this link:

Member Services ([member.services@six-group.com](mailto:member.services@six-group.com) / +41 58 399 2473) will provide professional and reliable assistance throughout the migration from CTI to OTI or QTI. Our specialists are available to assist you with the various processes and to answer any questions.

### Regulatory changes

The decommissioning of the Capacity Trading Interface (CTI) has an impact on our regulations. The following directives and guides are affected and will be amended accordingly:

- Directive 2: Technical Connectivity to SIX Swiss Exchange and SIX Structured Products Exchange
- Directive 7: Fees and Costs of SIX Swiss Exchange and SIX Structured Products Exchange
- Trading Guide

Amendments to the directives and guides will be communicated one month before they enter into force by means of a SIX Swiss Exchange message. They will also be published on the websites of [SIX Swiss Exchange](#) and [SIX Structured Products Exchange](#).

Our expert specialists, with their solution-driven approach, are there to assist you.
