SIX Swiss Exchange is introducing a further upgrade of its SWXess trading platform as part of its ongoing improvement efforts. SWXess Maintenance Release 6 (SMR6) is a **mandatory upgrade** which will mainly introduce the new Swiss@Mid non-displayed Mid-Point Order Book (MPOB) matching service as well as further enhancements and optimizations in On Book Trading, Trade Reporting and Post-Trade Processing.

Please note that most regulatory-driven changes regarding the Swiss Financial Market Infrastructure Act ("FinfraG") and MiFID II have been postponed until the next major SWXess release in 2017.

SMR6 is scheduled for go-live on **25 July 2016** in the Membertest- and on **17 October 2016** in the Production environment.

Please find all currently known information concerning SMR6 in the «[SMR6 – Participant Readiness](#)» brochure published with this message. The brochure contains information about functional changes and regulatory impact of SMR6 as well as details concerning the migration, testing phase and rollout. In addition, the publication contains links to several other SMR6 relevant documents.

The [SMR6 – Participant Readiness](#) brochure will be updated with more detailed information in due course before the Start of the Membertest phase and will be announced by a SIX Swiss Exchange message.

More information on the SWXess Maintenance Release 6 is available on the dedicated [SWXess Maintenance Release \(SMR\)](#) website and on the [Member Section](#) of SIX Swiss Exchange.

SIX Swiss Exchange is continuously striving to extend and improve the SWXess trading platform. Our participants will benefit from the improvements and optimizations resulting from SMR6, which guarantee continued efficient trading and post-trade processes.
