Information 

On 23 May 2016, the Index Department published a provisional list of newly valid outstanding share totals and free float values (see [SIX Swiss Exchange message 17/2016](#)).

In the meantime, some last-minute changes have been taken into account in order to ensure that the new index basket weights correspond to the current status.

The **definitive list of all changes effective from 20 June 2016** is now accessible at the SIX Swiss Exchange website ¹:

Adjustment of capping factors SLI®, SXI® Family and SPI® Select Dividend 20

For the SLI® as well as for the SXI Life Sciences®, SXI Bio+Medtech® and SXI Sustainability 25®, large-capitalisation issues are again capped at 9% and 4.5% (SLI®), at 10% (SXI Life Sciences®, SXI Bio+Medtech®) and at 15% (SXI Sustainability 25®) on the basis of the closing prices of 10 June 2016. For the SPI® Select Dividend 20, if the weighting of a security were to exceed 15%, the weight of the security will be limited at 15% on the basis of the closing prices of 9 June 2016.

The new capping factors are included in the list mentioned above.
