Pages 1

Date 16.12.2016

Information 

Content of this message:

- SMR6 Post Release is an optional release
- Changes to price step validation for SwissAtMid orders
- IMI Aggregation mechanism re-enabled
- Rollout of SMR6p in Membertest 9 January 2017 and Production 6 February 2017

As part of its ongoing improvements, SIX Swiss Exchange is introducing a further upgrade of its SWXess trading platform. The SMR6 Post Release (SMR6p) will mainly change the price step validation for orders routed to the new SIX Swiss Exchange at Midpoint (SwissAtMid) service offering.

SMR6p is scheduled to go live on **9 January 2017** in the Membertest environment and on **6 February 2017** in the Production environment.

You will find detailed information concerning the SMR6 Post Release in the «[SMR6p – Participant Readiness](#)» brochure, published with this message. The brochure contains information about the functional changes and regulatory impact of SMR6p as well as details concerning the migration, testing phase and rollout. In addition, the publication contains links to several other SMR6p relevant documents.

More information on SWXess Maintenance Release 6 is available on the dedicated [SWXess Maintenance Release \(SMR\)](#) website and on the [Member Section](#) of SIX Swiss Exchange.

The functional changes introduced with the SMR6 Post Release have also necessitated changes to the regulations. Updates to the Directive and Guides for the SMR6 Post Release will be communicated on **16 January 2017** by means of a [SIX Swiss Exchange message](#). They will also be published on the website of SIX Swiss Exchange.

SIX Swiss Exchange continuously strives to extend and improve the SWXess trading platform. Our participants will benefit from the improvements and optimizations resulting from SMR6p, which continued to guarantee efficient trading.
