Subject **Non-Display Information Usage Agreement (NDIU) amended definitions**

Category General Information

Authorized by Ottavio Gisler, Head Data Services Exfeed
 Marc Berthoud, Head Exchange Data Strategy

Pages 1

Date 24.10.2018

Information 

Content of this message:

- Amended definitions
-

Due to the introduction of MiFID II, which significantly increased the regulation of secondary market trading activities and functions, we have adjusted the respective definitions in the NDIU agreement with the goal to provide more detailed descriptions of fee-liable non-display usage in order to enhance clarity.

Please be notified that we'll be adjusting the definitions of our non-display categories in the following document ["Agreement for Non-Display Information Usage"](#) effective 1 January 2019.

We kindly ask you to examine the extended definitions in order to make sure that your usage declaration will be in line with the amended General Terms and Conditions and that the new rules and regulations in respect to MTFs (Multilateral Trading Facilities) and SIs (Systematic Internalisers) are fully taken into consideration.

If you have any questions, please do not hesitate to contact Data Services:
