25<sup>th</sup> May 2011

**Zurich, Switzerland – SIX Telekurs, a leading financial information provider, is proud to report its wins for Best Corporate Actions Data Provider and Best Reference Data Initiative – Vendor at this year’s Inside Market Data and Inside Reference Data Awards. The annual awards ceremony, held in New York, recognizes industry excellence in market data, reference data and enterprise data management.**

Following a reader survey, SIX Telekurs was nominated for awards across market data and reference data categories. This is the second year running that SIX Telekurs has won the award for Best Corporate Actions Data Provider. The second award, for Best Reference Data Initiative – Vendor, is a new award and honors a close collaboration between a vendor and an industry partner.

SIX Telekurs receives the Reference Data Initiative – Vendor award for its collaboration to enhance data quality and transparency in the processing of structured product investments. The collaboration sought to streamline and systematize the end-to-end flow of financial information between issuers and investors, and institutional end-users, thus reducing processing errors and the financial risks associated with such errors.

“These awards show that SIX Telekurs is a leading provider of innovative products and services,” said SIX Telekurs CEO Thomas Gross. “We are delighted that the industry recognizes our efforts by voting for SIX Telekurs. We would like to thank all of our customers and partners for their support. We continuously improve our coverage and quality of our data and work tirelessly to meet the needs of our customers.”
