

SIX

Hi,
nice
to
meet
you.

We are SIX

**For a Superior
and Innovative
Swiss Financial
Center**

Companies raised

CHF
93.4
bn

on the Swiss stock
exchange in 2017.

**As a stock exchange operator,
SIX provides access to the Swiss
capital market.**

We combine the trading, settlement and custody of securities under one roof. Our dynamism makes us one of Europe's leading stock exchanges, while our reliability means we are a stable partner.

As a competence center for Swiss payment transactions, SIX grants the banks direct access to the financial market.

We have orchestrated interbank payments for more than 20 years and we work constantly on the further development of card-based and mobile payments. We are playing a leading role in the digitalization of payment processes.

**CHF
184
bn**

a day flows through the interbank payment system.

Our data universe covers

23.7 mn

financial instruments.

As a leading global provider of financial information, SIX supplies high-quality reference and regulatory data.

We collect, standardize and optimize data and enrich it. Through the data we provide, we enable our clients to navigate the evolving regulatory landscape.

We invest

CHF 1 mn

in new projects and innovations – every working day.

As the operator of a stable yet innovative infrastructure, SIX enhances the competitiveness of its Swiss and international clients.

We operate an efficient, reliable and secure infrastructure and work constantly to optimize it. Switzerland's first cognitive Security Operations Center is the latest demonstration of this and is testimony to our commitment to cyber security.
