1.0 Basis for the pricing model and invoicing

SIX SIS pursues an open and transparent pricing policy. SIX SIS is committed to offering its services at competitive and cost-effective prices. Flexible pricing for both small and large volumes in Switzerland and abroad plays an important role. The pricing model is based on the current pricing policy approved by the Board of Directors:

- Transparent and attractive pricing
- Application of "user pays" principle and fair pricing
- Economies of scale obtained at purchase are passed on to participants

SIX SIS supports the Code of Conduct*.

*The European Code of Conduct on Clearing and Settlement is a voluntary self-regulation of the European stock exchanges, settlement agencies and central securities depositories (CSDs). See also <https://www.six-group.com/en/products-services/the-swiss-stock-exchange/post-trade/settlement-and-custody/info-center.html#scrollTo=code-of-conduct>

1.1 General

Invoicing

SIX SIS sends its participants a detailed invoice each month for the services used. All invoice amounts are indicated in Swiss francs (CHF). Participants have the choice between the direct debit procedure (bank account) and a debit of their cash account – in CHF, EUR, GBP or USD – with SIX SIS.

The pricing overview and the monthly invoice (report RPFE010) have the same structure. The fee code is indicated for each position, enabling participants to see at once what the position stands for. Manual bookings (RPFE070) and manual intervention fees/MIFs (RPFE075) are shown in detail on an ongoing basis in the monthly report. These items are mainly caused by market-specific services provided by third parties in connection with the processing of transactions or with other tasks executed abroad. They are passed on to participants.

Price details

Prices are set in CHF, basis points per annum/month (BP p.a., BP p.m.), per transaction, or in percent per annum (e.g. Securities Lending/Borrowing), on the value of the financial volume under management and are quoted exclusive of VAT. One basis point equals 0.01%.

Client groups

In principle, for services with sliding scale prices and rebates, the volumes of a client group are taken into account. At SIX SIS and SIX x-clear, the following conditions must be met in order to maintain a client group:

Institutions must have a parent company/subsidiary relationship or be part of a holding company and these participations must be consolidated in the same group financial statements.

In calculating prices, this has the following impact:

- when granting a volume rebate, all relevant volumes (e.g. custody account assets, transactions) of the group are taken into consideration, i.e. rebates are granted based on the group volumes.
- Volume-based prices apply based on the group volume.

Business Partners that are not part of a group will be treated as an individual client accordingly. The volumes of Assigned Business Partners (ABP) are already consolidated at the level of the top-level Business Partner, meaning a client with an ABP will benefit, for example, from volume rebates that are granted to the entire client group.

Third-party fees

If SIX SIS incurs costs and expenses in connection with the provision of services, SIX SIS is authorized to charge these to the relevant participant. This also applies in the event that a third party involved charges SIX SIS costs and expenses (see Art. 11b GTC SIX SIS).

1.2 Rebate models (individual service level)

The volume-based rebate model that applies in the price lists of SIX SIS and SIX x-clear AG is structured as a sliding scale rebate model. With this model, each level of the sliding scale must be passed through, i.e. the rebate rate only applies to the volume at the respective level. The average rebate rate/price applied is shown on the invoice.

Example of sliding scale rebate

In the event of level 3 being reached for the total volume:

1. No rebate is granted for the volume at level 1.
2. For the volume at level 2, the rebate valid for level 2 is granted.
3. For the volume at level 3, the rebate valid for level 3 is granted.
4. (No volume in level 4 or above)

2.1 International settlement transactions

Volume rebate model

A sliding scale rebate, which depends on the monthly transaction volume, is granted on the below-mentioned gross prices for international settlement transactions (fee code 2500), including INSET (fee code 2510 and 2515) as follows:

Sliding scale rebate on international settlement transactions (incl. INSET)			
Levels	Min. monthly transactions	Max. monthly transactions	Rebate
0	0	999	0.00%
1	1,000	9,999	15.00%
2	10,000	24,999	30.00%
3	25,000	49,999	40.00%
4	50,000	99,999	50.00%
5	100,000		60.00%

All international transactions (in all markets) of a client group are taken into consideration for the sliding scale rebate (see also Client groups).

- The net price per market is calculated as follows: Gross price * (1 – Group volume discount in %)

International settlement transactions (cross-border settlements) are usually charged at a standardized gross rate per custodian. If various domestic markets are settled via a custodian (hub situations), the gross rate can differ. Participants can find the relevant rate under the corresponding domestic market, which also appears on the monthly fee invoice. Participants also benefit from volume rebates on the following gross prices:

²XETRA and XONTRO non-CCP transactions (other bonds) via CBL are also charged via the CBb market.

³XETRA and XONTRO non-CCP transactions (non-bonds) via CBL are also charged via the CBn market.

⁴Transactions via SDX (Swiss Digital Exchange) are excluded from the sliding scale rebate.

Please note: The gross settlement prices mentioned above also apply for ETFs. For settlement transactions involving international securities between SIX SIS participants, the price for inhouse settlements applies (see Price list Domestic, fee code 2000). Third-party fees may be incurred in relation to receipt and delivery of physical securities physical handling; these are charged via the fee code "Int. settlement 3rd-party fees (with VAT)" (8250). In certain markets, third-party fees may be incurred for late/failed settlements; these are charged via the fee code "Int. settlement 3rd-party fees (without VAT)" (8260).

T2S

In addition to Swiss securities in EUR, SIX SIS participants can also settle cross-border transactions in other T2S markets directly via investor CSD connections. These EUR settlements are charged as T2S settlements with the corresponding fees (i.e. T2S settlement fee of SIX SIS plus any third-party fees incurred, not limited to T2S third-party fees of the ECB; see Price list Domestic of SIX SIS AG). This rule will apply until further notice.

Integrated settlement transactions (INSET)

The prices listed above for international settlement transactions are also applied on the INSET solution (integrated settlement transactions). Exceptions are outlined below.

Designation	Calculation method	Rate in CHF	VAT	Code
International settlement - XETRA CCP transactions (INSET)*	per transaction	1.00	0.00%	2510
International settlement - XONTRO non-CCP transactions (INSET)	per transaction	1.00	0.00%	2515

*Eurex underlying CCP transactions via CBF and CBL will also be charged via this fee code.

Please note: Depending on the client set-up, SIX SIS reserves the right to charge XETRA CCP transactions and XONTRO non-CCP transactions as regular settlements (fee code 2500) via the DE market code.

Price list SIX SIS International Services

Valid as of 1 January 2024

The following notes apply to all international settlement transactions:

Cancellations: System-related* or manually initiated deletions of settlement orders are not invoiced separately. However, the fee for the settlement order will be charged even in the event of a cancellation.

*Once a market deadline in a given market has expired, SECOM cancels all pending orders in the system automatically.

Splitting: If a participant initiates the splitting of a settlement order, this is not charged separately. However, the settlement fee is charged for each executed part.

Account transfers: If account transfers are permitted at international settlement agencies, these are debited in the same way as regular settlements.

However, additional expenses are invoiced separately (see also Bulk custody account transfers).

Automatic repairs: For instruction errors (e.g. individual format errors) that can be corrected automatically at SIX SIS, no separate fees are charged. For manual interventions/repairs, fees are incurred in line with code 2900 below.

Stamp duty reclaims: Stamp duty reclaims are charged in the same way as tax reclaims (code 3400); see chapter 2.10.1 *Tax reclaims*.

2.2

Conversions

With regard to the conversion services provided by SIX SIS, participants can choose between clarifications only and clarifications with instructions. They are invoiced as follows:

Designation	Calculation method	Rate in CHF	VAT	Code
Conversion services	per clarification only	100.00	0.00%	2770
	per clarification with instructions	150.00		

Please note: Any third-party fees are charged additionally ("Int. settlement 3rd-party fees (with VAT)", code 8250).

Conversions of Orascom Development Holding (ISIN CH.003'828'567'9) for transfers between the Egyptian and Swiss markets are charged to participants as follows:

Designation	Agent price per conversion value	Minimum rate in CHF	VAT	Code
Conversion services	0.03%	100.00	0.00%	2770

Please note: All third-party fees are charged additionally ("Int. settlement 3rd-party fees (with VAT)", code 8250 & "Int. settlement 3rd-party fees (without VAT)", code 8260).

2.3 Registrations and restrictions

The (re-)registration of a certificate for the purpose of remittance/withdrawal is charged as follows:

Designation	Calculation method	Rate in CHF	VAT	Code
International settlement - registrations	per order	120.00	8.10%	2780

Exceptional registrations are debited separately and may occur in the Japanese market for physical remittances and in the Canadian market for lifting restrictions. These are charged as follows:

Designation	Calculation method	Rate in CHF	VAT	Code
International settlement - Restricted securities	per order	see below	8.10%	2781

Market	Description	Rate in CHF
Japan	Clarification only	300.00
	Clarification incl. completion of physical remittance	500.00
Canada	Clarification only	225.00
	Clarification incl. lifting of a restriction	

Irrespective of whether the order is successful, the clarifications are invoiced even if the remittance is not accepted in Japan (CHF 300) or the restrictions cannot be lifted in Canada (CHF 225). Any third-party fees are charged additionally ("Int. settlement 3rd-party fees (with VAT)", code 8250).

2.4 Special orders

The additional fees listed below are charged for certain special orders relating to international settlement transactions requested by participants that SIX SIS has to execute manually (primarily portfolio realignments).

The following manual processes can be requested by participants in this regard:

- Position transfers (PTFs) from one type of position to another (e.g. KK to DE).
- Cash-only transactions for the Canadian and US markets
- SPO charge and pair-off for the US market

Designation	Calculation method	Rate in CHF	VAT	Code
International settlement - Portfolio realignment transactions	per order	150.00	0.00%	2700

Please note: Any third-party fees are charged additionally ("Int. settlement 3rd-party fees (with VAT)", code 8250 and "Int. settlement 3rd-party fees (without VAT)", code 8260). Instructions involving separated position types will be charged pursuant to the corresponding cross-border rates.

Refund of initial transfers

For custody account transfers for new participants or for new market activations, any cost refunds, if applicable, will be carried out under the following codes:

Designation	Calculation method	Rate in CHF	VAT	Code
Refund of initial transfers	n.a.	actual costs	0.00%	3200
Refund of initial transfers (3rd-party fees)	n.a.	actual costs	8.10%	3205

Order management and manual interventions

Any manual interventions required on the part of SIX SIS in relation to order management or corrected orders/instructions on the part of SIX SIS or its custodians are charged as follows:

Designation	Calculation method	Rate in CHF	VAT	Code
Settlement manual intervention	Manual entry/correction by SIX SIS or its custodians	75.00	0.00%	2900
	Manual IPO routing expenses	150.00		

*Due to the Indian market practice, SIX SIS assumes a routing function in the context of the subscription and settlement of IPOs.

Please note: The underlying service (usually settlement) is invoiced separately. Manually corrected orders/instructions are then also invoiced if the executed transaction is canceled in the mean time.

If manual interventions are required for a participant despite having already made information available to them (e.g. via MarketGuides, FAQs or SWIFT messages), SIX SIS reserves the right to debit the above-mentioned fees. Manual interventions also include providing information that has already been made available (e.g. market reference), LPS queries and clarifications as well as providing historical data.

The prices under Global Funds apply for Global Funds – see sub-chapter 3.3.3 *Exception fees (settlement services)*.

Bulk custody account transfers

SIX SIS assists its participants with bulk transfer requests. This service is charged at cost for each custody account or as is standard in line with a quotation (usually at least CHF 1,500). Any settlement fees incurred in this respect are charged additionally via the settlement fee code 2000 or 2500.

Fees incurred in connection with a bulk transfer are not listed separately but are booked together with all other extraordinary settlement services^{*)}, which are charged at cost and have been agreed upon with participants, to the following fee code:

Designation	Calculation method	Rate in CHF	VAT	Code
Settlement miscellaneous/ Special efforts	n.a.	at cost min. CHF 1'500	0.00%	2990

Price list SIX SIS International Services

Valid as of 1 January 2024

*) Extraordinary settlement services include providing comprehensive historical data or processing/resolving mismatches and breaks. SIX SIS reserves the right to debit a fee for such extraordinary services.

Third-party fees

Third-party fees related to international settlement transactions are passed on to participants. A distinction is made between services that are subject to VAT and services that are exempt from VAT.

Designation	Calculation method	Rate in CHF	VAT	Code
Int. settlement 3rd-party fees (with VAT)	n.a.	actual costs	8.10%	8250
Int. settlement 3rd-party fees (without VAT)	n.a.	actual costs	0.00%	8260

2.5 EU CSDR Settlement Discipline Regime

The new Settlement Discipline Regime (SDR) regulations form part of the wide-ranging EU regulation on central securities depositories (CSD Regulation, CSDR) and aims to increase settlement efficiency in the EU markets (does not apply to Swiss market*). SIX SIS is not subject per se to CSDR, but as part of the custody and settlement chain, it may be impacted indirectly by CSDR and the associated cash penalties resulting from settlement fails caused by SIX SIS participants. Any CSDR cash penalties paid by SIX SIS will be passed on to the participants causing the fail.

*) As the CSD in the Swiss market, SIX SIS is not subject to CSDR and therefore does not apply these regulations to the Swiss market. The existing processes and infrastructure for settlement in the Swiss market will remain unchanged. In particular, this also applies to the late/failed settlement regime for CCP transactions.

Disclaimer

CSDR cash penalties are not part of the Price list SIX SIS International Services nor the Price list Domestic SIX SIS AG. CSDR cash penalties are reported, charged and credited outside of the SIX SIS fees processes. As such, CSDR cash penalties are not shown on the SIX SIS fee invoice nor on any other SIX SIS fee reports.

More information on the EU CSDR Settlement Discipline Regime can be found in the MarketGuide - EU CSDR: Settlement Discipline, published at www.six-group.com > Login > Securities Service Private > MarketGuide > Country Information > Further Market Information > EU CSDR Settlement Discipline.

2.6 Safe custody

Volume rebate model

A volume-related sliding scale rebate is granted across all international assets under custody, comprising the international core custody (3010) and ESES floor value gap (3011) fee codes.

Price list SIX SIS International Services

Valid as of 1 January 2024

Sliding scale rebate on securities safekeeping			
Levels	Minimum in CHF	Maximum in CHF	Rebate
0	0	1,999,999,999	0.00%
1	2,000,000,000	9,999,999,999	15.00%
2	10,000,000,000	49,999,999,999	30.00%
3	50,000,000,000	99,999,999,999	40.00%
4	100,000,000,000	199,999,999,999	50.00%
5	200,000,000,000		60.00%

All of the client group's international custody account assets are taken into consideration when calculating the sliding scale rebate for securities safekeeping (see also Client groups). Basically, each level of the model must be passed through, i.e. the rebate rate only applies to the volume at the respective level. On the invoice, the rebate rate applied on average is shown.

- The net price per market is calculated as follows: Gross price * (1 - Group volume discount in %)

All important core services related to the safekeeping of international holdings are charged via a collective price that depends on the deposit value of the holdings. Participants benefit from volume rebates (see above) on the following gross prices:

Designation	Calculation method	Rate in BP p.a.	VAT	Code

Special notes on the ESES floor value gap

- The floor value applies at the level of the security whenever the market value is lower than the ESES floor value (i.e. EUR 1, EUR 6 or EUR 12).
- On fee code 3010, SIX SIS charges international custody fees based on securities market values at month-end (using average monthly holdings) as usual.
- On fee code 3011, SIX SIS charges the ESES floor value gap, representing the ESES add-on deposit value (floor value minus market value).
- With regard to the latest available ESES floor value list, kindly note that ISIN and/or floor value changes might result in fee adjustments in subsequent months. Accordingly, SIX SIS reserves the right to charge the participant corresponding difference amounts.

* Assumed sample net price – actual net price will depend on applicable market price and sliding scale rebate.

Please note: Any third-party fees, for example in relation to special linked account set-ups, are charged additionally ("Int. custody agent 3rd-party fees", code 8300 & "Int. custody general 3rd-party fees", code 8310). For products with a fund-specific market code (e.g. XA, XB), see sub-chapter 3.4 *Safekeeping*.

The safe custody price covers the administration of securities data, corporate actions (mandatory/voluntary), administering holdings of companies that are insolvent or in liquidation, the execution of waivers as well as communication services.

Rules for determining a market to which an ISIN belongs

For market allocation, the ISIN prefix is decisive for all securities. Exceptions:

- a. Eurobonds (EM): Eurobonds according to SIX Financial Information (MAZU-1) plus all XS securities
- b. China: H shares are allocated to the Hong Kong market
- c. China: S shares are allocated to the Singapore market
- d. Netherlands Antilles (AN): these securities are allocated to the Curaçao (CW) market.
- e. International ETFs that are held with an ICSD are allocated to market IX. (Please note: All other ETFs are allocated in accordance with the ISIN prefix and booked in line with the market code – e.g. ETF Germany in accordance with the German market.)
- f. Switzerland: All vault securities incl. registered shares and dematerialized funds, incl. intermediated securities with Swiss/Liechtenstein main paying agents are allocated to the Swiss (CH) market.
 - All vault securities for Liechtenstein (LI) will equally be allocated to the Swiss market.
 - For securities with the CH prefix without a main paying agent function of a SIX SIS client or securities without an official ISIN, the SIX SIS main custodian will be the criterion for market allocation.
- g. Funds: The categorization of Global Funds is based on operational and market-specific factors and is the responsibility of SIX SIS.

2.7 Low priced securities custody fee

From a risk perspective, "low-priced securities" (LPS) require a higher degree of monitoring. They are under strict/constant observation of the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA) in the US.

In this respect, participants will be debited a fixed fee for each LPS ISIN position that they hold as at month-end.

Designation	Calculation method	Rate in CHF	VAT	Code
LPS custody fee	Per LPS ISIN as at month-end	25.00	8.10%	3220

LPS ISINs will only be charged once a month for each participant (BP ID). Any ISIN that appears on the "List of Low Priced Securities In-Scope Universe" is deemed to be an LPS. The list can be found at www.six-group.com > Login > Securites Services Private > MarketGuide > Securities lists > USA.

2.8 Corporate actions

SIX SIS distinguishes between corporate actions (C/A) without any choice (mandatory corporate actions – M/A) and corporate actions with a choice (voluntary corporate actions – V/A).

In principle, the price for securities safekeeping includes the execution of corporate actions. An additional fee per instruction is only charged in the following cases:

- Late V/A instructions
- Non-compliance with deadline
- Changes to instructions after deadline
- Intervention due to non-compliance with instruction requirements

Designation	Calculation method	Rate in CHF	VAT	Code
Late/ corrected V/A instruction	per order	250.00	0.00%	3290

Manual corporate action orders for structured products

Manual redemptions and interest payments for structured products (CONNEXOR® Events) or events where manual intervention is required on the part of SIX SIS will not be debited separately. However, SIX SIS reserves the right to debit fees under "Late/ corrected V/A instruction" (code 3290) in the case of excessive use.

2.9 General meetings and proxy voting

For general meetings and proxy voting, two different processes, based on the market, exist. Non-EU/EEA assets can be handled through CAES. For EU/EEA assets, either SWIFT messages or the GM SRD Portal are used.

Price list SIX SIS International Services

Valid as of 1 January 2024

2.9.1 General meetings and proxy voting in CAES (non-EU/EEA markets)

Automatically processed orders (straight-through processing, STP) for general meetings and proxy voting are charged on a standardized basis per business transaction. Orders that need to be processed manually (non-STP) are charged at a higher rate.

Designation	Calculation method	Rate in CHF	VAT	Code
Custody proxy voting service / Proxy Light	Per business transaction (e.g. per voting instruction, per admission card, per Votex)	35.00	8.10%	3300

Please note: Any third-party fees are charged in addition ("Custody proxy voting 3rd-party fees", code 8330).

Additional special/manual and individual services in the area of proxy voting and general meetings are charged at cost under the following fee code:

Designation	Calculation method	Rate in CHF	VAT	Code
Custody proxy voting special efforts	n.a.	at cost	8.10%	3320

2.9.2 General meetings and proxy voting in GM SRD Portal (EU/EEA markets)

General meetings and proxy voting for EU/EEA markets are affected by the Shareholder Rights Directive II (SRD II). SIX SIS participants need to choose if they want to handle these processes through SWIFT ISO 20022 messages (see sub-chapter 6.2 *SWIFT*) or the GM SRD Portal in SWS. These processes are enabled for a market as soon as the market is ready with SRD II.

For the GM SRD Portal, automatically processed orders (straight-through processing, STP) for general meetings and proxy voting are charged on a standardized basis per business transaction. Orders that need to be processed manually (non-STP) are charged at a higher rate.

Designation	Calculation method	Rate in CHF	VAT	Code
Custody proxy voting service notifications (STP)	Per notification	35.00	8.10%	3305
Custody proxy voting service instructions (STP)	Per voting instructions, per admission card	35.00	8.10%	3306

2.10 Tax services

The tax services provided by SIX SIS include all administrative tasks related to tax reclaims as well as tax documentation and reporting for compliance reasons.

2.10.1 Tax reclaims

SIX SIS offers an efficient tax reclaim service in all major markets. In some markets, even relief at source is possible. After receipt of the tax amount reclaimed, SIX SIS credits the amount to the client's account, provided tax reclaim services are offered for the respective market. In the case of relief at source, the correct deductions are made as of distribution date. Fees for tax services are listed separately on the monthly invoice. As tax services may involve very complex processes, please discuss the relevant prices and procedures with the "Tax Services" department in advance.

Designation	Calculation method	Rate in CHF	VAT	Code
Standard tax reclaim	see below	see below	8.10%	3400

Market (ISIN prefix)	Form/Service	Rate in CHF
AT, BE, CZ , DK, FI, NO, SE, SK Other (incl. CH)	Tax reclaim per application	260.00

Please note: Any in-depth research required in connection with tax reclaim applications that goes beyond the standard service is charged additionally at a rate of CHF 150.00 per hour. Any third-party fees incurred are charged additionally ("Tax 3rd-party fees", code 8350).

2.10.2 Tax vouchers

The following rates apply for issuing vouchers/tax receipts:

Designation	Calculation method	Rate in CHF	VAT	Code
Tax voucher	per position	45.00	8.10%	3440

Please note: Any third-party fees incurred are charged additionally ("Tax 3rd-party fees", code 8'350).

Quick Refund (QR)	per application	230.00	8.10%	3420

Please note: Any in-depth research required in connection with Relief at Source and Quick Refund that goes beyond the standard service is charged additionally at a rate of CHF 150.00 per hour. Any third-party fees incurred are charged additionally ("Tax 3rd-party fees", code 8350). Relief-at-Source (RAS) applications within the German market (for investment funds) will be debited at CHF 75 per application.

2.10.4 Tax documentation and reporting

SIX SIS charges a flat fee for processing/uploading Financial Transaction Tax (FTT) reports. SIX SIS reserves the right to charge an hourly fee for any in-depth research required in connection with certain client queries that goes beyond the standard service. The reports can either be generated by SIX SIS or made available by the client.

Designation	Calculation method	Rate in CHF	VAT	Code
Financial transaction tax reporting	per report	75.00	8.10%	3475

The following flat fee is charged for tax disclosure reporting:

Designation	Calculation method	Rate in CHF	VAT	Code
Tax documentation and reporting	per report	75.00	8.10%	3480

Please note: Any in-depth research required in connection with tax documentation and reporting that goes beyond the standard service is charged additionally at a rate of CHF 150.00 per hour. Any third-party fees incurred are charged additionally ("Tax 3rd-party fees", code 8350).

2.10.5 US tax reporting

Under the Foreign Account Tax Compliance Act (FATCA), SIX SIS AG is obliged to identify and document its participants.

Price list SIX SIS International Services

Valid as of 1 January 2024

Section 871(m) of the US Internal Revenue Code also contains an additional withholding and reporting obligation, which has resulted in an enhancement of our services for US tax-relevant securities.

Compliance with these two regulations gives rise to operating costs, which are mirrored in our fee structure. For these services, the following amounts will be charged for each relevant ISIN (on the basis of the affected tax domicile of each ISIN):

Designation	Calculation method	Rate in CHF	VAT	Code
Participant identification and documentation (incl. FATCA/871m reporting - if applicable)	per ISIN per month*	see below	8.10%	3460

1	0-4	95.00
2	5-49	280.00
3	50-499	555.00
4	500-open	925.00

2.10.6 Handling of exceptions

Additional costs are debited (per application) for reclaim applications and applications for tax relief at source that were not submitted on time, incidences of non-compliance with legal deadlines, submitting incorrect reclaim applications and the associated return of such applications. SIX SIS also reserves the right to charge an hourly rate for certain client queries that go beyond the standard service and require in-depth research. This also includes, for example, the processing of capital gains tax (CGT) transactions.

4.0 Triparty Collateral and Securities Finance Services

4.1 Triparty Collateral Services

The uniform pricing model for Triparty Collateral Services applies for all post-trade collateral services offered by SIX SIS. It is applied irrespective of the status of the migration of the underlying collateral services to the Triparty Agent (TPA) platform.

For Triparty Collateral Services, transactions are charged per instruction (“Triparty transaction fee” and “Triparty modification transaction fee”) as well as administered exposure volume (“Triparty administration fee”). The fees are charged separately for both parties involved in the transaction (Collateral Provider and Collateral Taker). Depending on the transaction, alternative agreements can be made between the involved parties (or possibly a third party) as regards how the two applicable fee charging components are split.

Furthermore, a monthly flat-rate “Triparty service fee” is charged to use the Triparty Collateral Services.

4.1.1 Triparty administration fee

The Triparty administration fee is remuneration for the administration of the open transaction volumes (“outstandings”) administered by the Triparty Service. This service includes automatic allocation in accordance with the allocation strategy, the valuation of the collateral as part of the mark-to-market process, monitoring of concentration limits and automatic substitution in the case of corporate actions.

In principle, the Triparty administration fee is charged to the Collateral Provider (CP) and Collateral Taker (CT) / both sides in each case. The average monthly market value of the open transaction volume (“outstandings”) per calendar day is used to calculate the fee.

Description	Calculation method	Rate in BP p.a.	VAT	Code
Triparty administration fee	Average monthly market value of the “outstandings” per calendar day	0.50	8.10%	4550

Description	Calculation method	Rate in BP p.a.	VAT	Code
COSI* certification fee	Average monthly market value of the "outstandings" per calendar day	10.00	8.10%	4550

* The COSI certification fee is charged in addition to the Triparty administration fee and only on the underlying COSI (Collateral Secured Instruments) product.

"Outstandings" can result from different underlying Triparty Collateral Services. The following overview illustrates the charging standards for the Triparty administration fee.

Charging standards

Service	Standard charging of Triparty administration fee
Repo	Collateral Provider (0.50 bps for CP service) Collateral Taker (0.50 bps for CT service)
SNB custody cover account	No charge*)
SecLend	Collateral Provider (0.50 bps for CP service) Collateral Taker (0.50 bps for CT service)
TCM standard	Collateral Provider (0.50 bps for CP service) Collateral Taker (0.50 bps for CT service) <i>Please note: If the Collateral Taker is not a SIX SIS participant, SIX SIS charges the Collateral Provider (0.50 bps for CP service + 0.50 bps for CT service); Collateral Taker (no charge)</i>
TCM structured products	Collateral Provider (0.50 bps for CP service + 0.50 bps for CT service) <i>Please note: Only Collateral Provider is charged as SIX SIS = Collateral Taker.</i>
COSI (Collateral Secured Instruments)	Collateral Provider (0.50 bps for CP service + 0.50 bps for CT service + 10.00 bps for COSI certification fee) <i>Please note: Only Collateral Provider is charged as SIX Swiss Exchange = Collateral Taker (and together with SIX SIS the service provider)</i>

*) CP- & CT-side administration of the SNB custody cover account is not charged, only the Triparty service fee. Repo transactions that use collateral from the SNB custody cover account are charged in accordance with this price list.

Subject to the agreement of all involved parties*) and corresponding contractual basis, it is possible to deviate from the above-mentioned fee charging standards by splitting the two applicable fee charging components in a different way. For example, one party could pay the Triparty administration fee for both parties (0.50 bps + 0.50 bps) for the underlying TCM standard service.

*) Incl. agreement of SIX SIS

The charging standards as illustrated for the Triparty administration fee also apply for the Triparty transaction fee and the Triparty modification transaction fee (but not for the Triparty service fee).

4.1.2 Triparty transaction fee

Instructions to administer an exposure (MT527 via SWIFT, entry in Collateral Cockpit etc.) are entered as Triparty transactions when they are opened and a Triparty transaction fee is charged. The Triparty transaction fee is charged to both Collateral Provider and the Collateral Taker.

Description	Calculation method	Rate in CHF	VAT	Code
Triparty transaction fee	Both involved parties are charged for each trade/opening in each case.	15.00	0.00%	4560

Among other things, this fee does not cover the settlement instructions or transfers between longboxes or escrow accounts triggered by the Triparty service.

If, for the Triparty administration fee, all the involved parties*) agree to an arrangement that differs from the charging standards (see sub-chapter 4.1.1 *Triparty administration fee* above) for debiting the two fee components and a corresponding legal basis, this arrangement also applies for the Triparty transaction fee.

*) Incl. agreement of SIX SIS

4.1.3 Triparty modification transaction fee

The Triparty modification transaction fee covers all Triparty modification transactions that result from the underlying transaction.

This includes client modifications to the conclusion of a trade or that have an impact on settlement (incl. increases or decreases of the amount to be collateralized or price adjustments for the structured product), but not orders for collateral adjustments (e.g. manual allocation or substitution), as these are already included in the Triparty administration fee.

Description	Calculation method	Rate in CHF	VAT	Code
Triparty modification trx fee	per modification transaction	see below	8.10%	4565

Sliding-scale pricing model for Triparty modification transaction fee			
Levels	Minimum amount	Maximum amount	Rate in CHF
1	0	15,000	3.00
2	15,001		0.10

For this sliding-scale pricing model, both levels must be passed through, i.e. the rate only applies to the volume at the respective level. To determine the price, the monthly group volume is used and the average price calculated in this way is applied to all Triparty modification transactions of the client group.

Example: With a group volume of 50,000 monthly modification transactions, an average price of CHF 0.97 per modification transaction applies ($15,000 \times \text{CHF } 3.00 + 35,000 \times \text{CHF } 0.10 = \text{CHF } 48,500 / 50,000$).

If, for the Triparty administration fee, all the involved parties*) agree to an arrangement that differs from the charging standards (see sub-chapter 4.1.1 *Triparty administration fee* above) for debiting the two fee components and a corresponding legal basis, this arrangement also applies for the Triparty modification transaction fee.

*) Incl. agreement of SIX SIS

4.1.4 Triparty service fee

A monthly flat-rate Triparty service fee is charged to use the Triparty Collateral Services.

Description	Calculation method	Rate in CHF	VAT	Code
Triparty service fee	per BP ID with access to TPA / Collateral Cockpit / Triparty Collateral Services	500.00	8.10%	4570

If, for the Triparty administration fee, all the involved parties*) agree to an arrangement that differs from the charging standards (see sub-chapter 4.1.1 *Triparty administration fee* above) for debiting the two fee components, this arrangement only applies for the Triparty service fee, if and when expressly contractually stipulated. This notwithstanding, the Triparty service fee is always charged for each BP ID (with access to TPA and/or Collateral Cockpit and/or Triparty Collateral Services) once a month.

*) Incl. agreement of SIX SIS

Supplementary notes

The relevant collateral accounts (e.g. longbox and escrow accounts) are required to use the Triparty Collateral Services. Detailed information about the Triparty Collateral Services can be found in the relevant ServiceGuide, published at www.six-group.com > Login > Securities Services Private > Service > CORE.

Custody fees are charged for positions in collateral accounts (in the same way as for ordinary securities accounts) – see sub-chapter 2.6 *Safekeeping* (and Price list Domestic SIX SIS, sub-chapter 2.6 *Safekeeping*). Collateral transfers between the longbox, escrow accounts and other SIX SIS custody accounts are free of charge.

4.2 Securities Lending & Borrowing (SLB)

Securities lending and borrowing (SLB) is not a Triparty Collateral Service. With SLB, the participant can both minimize the number of settlement fails as a borrower and generate additional income as a lender. This fail-driven SLB is a fully integrated support function that increases the efficiency of SIX SIS's settlement service. Participants can participate in SLB by automatically or manually placing instructions as the lender or the borrower.

SIX SIS retains a margin between the lending fee and borrowing fee. In addition, the borrower is charged a minimum fee per day. If the borrower only uses the service on an intraday basis, this minimum fee is not incurred.

SIX SIS may adjust the lending and borrowing fees at any time and with immediate effect in accordance with the prevailing market conditions. The current securities lending and borrowing prices can be obtained from SIX SIS's Triparty Repo & Securities Lending and Borrowing Desk. The contact details are mentioned in the list of SIX SIS contacts published at www.six-group.com > Login > Securities Services Private > Contacts > SIX SIS > List of SIX SIS contacts.

4.3 Special services and reporting

In addition to the Triparty Collateral Services and SLB, SIX SIS participants can use special and reporting services if required. These services include SFTR reporting as per the EU regulation, special reporting and the charging of special services.

4.3.1 SFTR reporting

Following the entry into force of the EU regulation^{*)} on securities financing transactions, all users must report their activities to an officially approved trade repository. The reporting obligations include providing in-depth information about the involved parties, transactions details and the securities involved; the value of the securities must be updated on a daily basis and transaction lifecycle events have to be reported.

^{*)} EU Regulation 2015/2365 for securities financing transactions with reporting obligations for all users (banks, insurers, investment funds and corporates, such as non-financial counterparties) domiciled in the EU or European Economic Area.

To provide specific assistance to participants in fulfilling their reporting obligations, a **Delegated Reporting Service** is offered for repo transactions administered by SIX Repo. As part of this service, SIX SIS takes responsibility for sending the notifications to the Regis-TR trade repository. All the required notifications are sent by SIX SIS on behalf of the participant.

An annual flat fee is charged for this service at the start of each year.

Valid as of 1 January 2024

Description	Calculation method	Rate in CHF	VAT	Code
SFTR reporting services	Annual per BP ID	22,500.00	8.10%	4575

4.3.2 Special services & reporting

As an addition to the standard Triparty Collateral Services or SLB services, special services & reporting are offered to meet individual participant needs. Special services and "special efforts" are also charged to clients in the area of Securities Finance. These fees may be charged on a one-time, recurring or ad hoc basis.

Description	Calculation method	Rate in CHF	VAT	Code
Securities finance special services	Dependent on individual participant requirements (as well as external and internal costs)	on request / by offer	8.10%	4575

The pricing for these Triparty Special Services depends on the individual participant requirements as well as the associated external and internal costs. Participants can obtain more information on this from the SIX Repo Infodesk or their Relationship Manager.

5.0 Issuance services

5.1 Services for main paying agents (MPA)

This sub-chapter includes services that are normally charged to participants in their role as main paying agent, issuer or lead manager.

5.2 New issues - IBT - uncertificated securities

For issues with uncertificated securities that are registered via CONNEXOR® Distribution (IBT - Internet Based Terms and IBL - Internet Based Listing), a volume-based sliding scale fee containing separate steps applies. The fee depends on the cumulative annual volume of such new issues for a client group in accordance with the table below.
