Second T+1 Pulse Survey – Implementation, Market Practices and Testing Preparations

The publication of the swissSPTC T+1 Market Practices Handbook on 18 September 2026 marked another important milestone.

The Handbook provides further details on the 17 swissSPTC T+1 Recommendations and defines practical market standards for a better, efficient and harmonised transition, aligned as closely as possible with the EU and the UK, while taking into account national specificities.

In view of the transition to a T+1 settlement cycle on 11 October 2027, *The ValueExchange* is conducting a second T+1 Pulse Survey for Switzerland, Liechtenstein and the EU Member States.

- The first survey in spring 2026 provided insights into market participants' readiness regarding the swissSPTC Recommendations and the expected operational impacts.
- The swissSPTC is also supporting this second survey to obtain an up-to-date overview of market participants' implementation progress regarding the Market Practices outlined in the Handbook and the testing readiness of the Swiss and Liechtenstein markets.

The survey is anonymous, takes approx. 15 minutes and is open until 9 November 2026.

You can participate via the following swissSPTC survey link:

[\[https://survey.thevalueexchange.co/s3/24UKT1-2026Q3-EU-CH-swissSPTC\]](https://survey.thevalueexchange.co/s3/24UKT1-2026Q3-EU-CH-swissSPTC)

Participating firms also have the option to receive an individual Benchmarking Scorecard, allowing them to compare their own readiness with that of relevant market participants.

The survey is sponsored by the financial market infrastructures SIX, Clearstream and Euroclear is supported in cooperation with the EU T+1 Industry Committee and leading industry associations.

We thank you in advance for your participation and for widely sharing the survey within your organisations and networks.

On behalf of swissSPTC
