

Annex 4

Price List for the bLink Platform

Valid from 1 January 2024

1) General

SIX BBS Ltd (SIX) is the operator of the bLink platform. On the bLink platform, Participants can offer services as Service Providers and/or purchase services as Service Users.

A Service Provider has the option of charging fees for its services to the Service User. In its role as the operator of the Platform, SIX takes over the invoicing.

All amounts are quoted in Swiss francs (CHF). The information contained in the price list does not include value added tax, withholding tax or similar taxes. All taxes and fees shall be borne by the Participant.

Explanation of terms

The following terms and abbreviations are used in this document:

Application	An Application is a service that a Service Provider makes available to the Service User through one or more API Services via the bLink Marketplace. The contractual conditions of the Application are defined in the respective application specification, which becomes the Application Agreement if the data exchange is successful.
Application Agreement	Agreement between the Service Provider and the Service User, which is concluded when the Service Provider answers the service call on the Platform in accordance with the application specification (details in the Participation Contract, section 6.2 N 44 et seq.).
API Service	An API Service represents the smallest unit of the Application offered via an API for which an Application Agreement is concluded.
Consent as a service (CaaS)	With "Consent as a Service" (hereinafter referred to as " CaaS "), SIX provides the Service User with provider token store for the secure custody of provider tokens.
Third-Party Provider (TPP)	Third-Party Providers (TPP) are Participants who are not affected by FINMA regulations (e.g. providers of software solutions) and act as Service Providers or Service Users on the Platform.
Partner API	The API of a Service Provider, about the existence and use of which the Service Provider can decide freely within the scope of Annex 2 – Partner API Application Specifications, in particular with regard to the design of the API Service and the technical specifications (ownership).
Platform	The bLink platform operated by SIX
Service Provider	Provides the API Service.
Service User	Obtains the API Service.
Participation Contract	With a positive decision of admission to the bLink platform and to at least one of the requested Applications, the Participation Contract comes into effect with the legally valid signing of the participation conditions.
Participants	The Participant is the contractual partner of SIX in the Participation Contract. The Participant assumes the role of either Service Provider or Service User in the Application Agreement.

2) Onboarding Fee

The onboarding fee to be paid by the Participant compensates SIX for its efforts during the admission test, the technical connection to the Platform and for the support provided to the Participants during onboarding. The fee is charged per Application and per role. Subsequent connections with a new API or Application, or a change of role, will incur a new onboarding fee as an expense allowance.

2.1 Onboarding fee for Third-Party Providers

Fee	Price in CHF
Onboarding fee	5,000.00

2.2 Onboarding fee for financial institutions

Fee	Price in CHF
Onboarding fee	15,000.00

3) Participation Fee

SIX charges each Participant a monthly flat fee for participation in the Platform. This fee is independent of the number of active Applications selected by the Participant.

Fee	Price per month in CHF
Participation Fee	200.00

The participation fee also includes support requests to ensure normal operation within the usual scope. The usual scope includes 12 hours per year. SIX charges CHF 50 per 15 minutes or part thereof for any additional work.

4) Fee for Account and Payment Services

If a Participant uses an AIS and/or PSS application, they must pay SIX a monthly application fee. The amount of the fee depends on the number of potential counterparties. A potential counterparty is a Participant in the respective Application. For the determination of the monthly fee, only the number of potential counterparties is relevant, and not the number of counterparties with which API calls were actually executed.

4.1 Service User: Fee for account and payment services
