

The Swiss Stock Exchange

Registered Shares/ Share Register

Customized training with a focus on practice

All companies traded on the Swiss Stock Exchange are connected to the registered shares system. This course provides back-office staff with the principle of registered shares and the function of the share register on the Swiss market.

In this course, you will learn more about how the registered shares system of SIX works and about AREG Data for automatic transfer of shareholder data.

Moreover, you will learn how to work with webMAX or SIS Web Services to settle your trades in registered shares. This course is dedicated to back-office staff dealing with Swiss registered shares.

Learning Objectives

You will be able to...

- explain the principle governing the registered shares system of SIX in your own words.
- list all types of positions and their definitions.

You can...

- enter the most important instructions for the transfer of registered shares using the documents.
