# The Stage Program: Succeed Through Proactive Presence

**One of the most important reasons for listing on a stock exchange is the access it offers to financial markets and growth capital. To be able to use capital markets effectively, however, a company needs to have a minimum volume of trading liquidity.**

Shares of small and medium-sized companies are often less liquid for a variety of reasons.

To help companies boost their presence in the market and achieve an appropriate valuation, SIX offers the Stage Program.

The Stage Program helps companies to improve their visibility among essential stakeholders in a targeted manner.

Thanks to the Stage Program, you benefit from a regularly updated factsheet as well as research reports created by our experienced partners for you to reach a large number of capital market participants.

In addition, you have access via SIX to statistics and services, which make your being public a lot easier.

To guarantee the independence of the reports and ensure continued investor trust in the research, there is no contractual relationship between your company and the partners involved. SIX acts as a link between you, the client, and the partners. To ensure that the interests of the various parties are taken into account, a SIX advisory body – the Research Commission – has been established.

# Research Coverage for Your Company

**With the factsheet and the research report, your company is on track. You will receive comprehensive research coverage as well as market-relevant figures and important information at a glance.**

## **The Factsheet**

The factsheet includes the following information as a minimum:

- description of business activity
- key figures: sales, EBIT, net profit (no estimates)
- performance

The factsheet is drawn up within two months of your company joining the program and is regularly updated for you.

## **The Research Report**

With the Standard, Premium and Deluxe offers, you benefit from a professional research report comprising the following minimum elements:

- investment case
- a rating (estimate) and target share price, or potential in comparison to the SPI in the case of relative assessments (outperform/underperform)
- housekeeping information, e.g. number of shares, ticker, shareholders
- description of the segments in which your company is active: drivers, markets, competition and other indicators for a significant investment case
- evaluation and explanation of the approach and the peer group (as needed)
- financial model with three-year estimates and at least three years of history
- determination and appraisal of estimates

The report for your company will be fully integrated into the existing research product portfolio of the bank and released in its publication language.

# Benefit from Independent Reports

**Being part of the SIX Stage Program enables you to receive independent research reports and aims to ensure the fair distribution of research mandates.**

## **Research Mandates**

SIX acts as a link between you and the research partners. In this way, we ensure the independence of your research reports. We also guarantee fair distribution of the mandates. The mandates are allocated to the participating banks on a random basis; neither you nor the partners have any influence over the allocation.

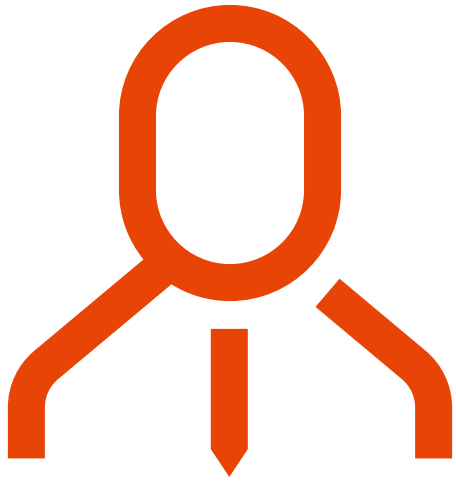

## **Use of the Research Reports and Factsheets**

Your company is free to use the factsheet and upload it to your webpage.

The distribution and marketing of the research report are the responsibility of the bank that drew up the report and that distributes the research report through its conventional channels. A copy of each report is provided to your company for internal use.

## **Contractual Term**

A one-year contractual term applies to the "Light" Stage offering, while for the other Stage offerings, the contract is concluded for two years at the outset. This two-year term ensures comprehensive and ongoing coverage, enabling an in-depth examination of your company.
