

SIX Swiss Exchange Message No. 38/2011

Title **Additional capacity in bond segments**
Category Trading and Products
Authorized by Ueli Goldener, Head of Product Management Fixed Income
Nadine Bürgis, Head of Member Services
Pages 1
Date 25 July 2011

Information 

Dear Sir/Madam

SIX Swiss Exchange hopes to increase the appeal of the bond segments by providing market makers in the CHF Bonds and International Bonds segments with additional free capacity for a year:

- Market makers will receive an extra five quotes per second (QPS) per bond segment – i.e. five for CHF Bonds and five for International Bonds – in addition to the five free QPS they already receive as well as the QPS they have paid for.
- This increased capacity in the bond segments is being made available on a temporary basis, starting on 2 August 2011 and ending on 31 July 2012.

Sincerely

Product Management Fixed Income
SIX Swiss Exchange Ltd.
