Information 

On 26 May 2014, the Index Department published a provisional list of newly valid outstanding share totals and free float values (see [SIX Swiss Exchange message 13/2014](#)).

In the meantime, some last-minute changes have been taken into account in order to ensure that the new index basket weights correspond to the current status.

The **definitive list of all changes effective from 23 June 2014** is now accessible at the SIX Swiss Exchange website:

Adjustment of capping factors SLI[®], SXI[®] Family and SPI[®] Select Dividend 20

For the SLI[®] as well as for the SXI Life Sciences[®] and SXI Bio+Medtech[®], large-capitalisation issues are again capped at 9% and 4.5% (SLI[®]) and at 10% (SXI[®]) on the basis of the closing prices of 13 June 2014. For the SPI[®] Select Dividend 20, if the weighting of a security were to exceed 15%, the weight of the security will be limited at 15% on the basis of the closing prices of 12 June 2014.

The new capping factors are included in the list mentioned above.
