

SIX iD

Your guide to getting started

Fundamentals

1 Home

Quickly access predefined workspaces (e.g. markets, asset types, tools, news, etc.) as well as lists, dedicated content and calculators.

2 SIX iD Menu

Direct access to Workspaces, Quote Lists and History. Create new customized items like quote lists, portfolios and yield curves. Open windows that are not related to a specific instrument (e.g. General news, Economic Calendar, Watchdog, Limit Minder & Calculators).

3 SIX iD Search

SIX iD Search is accessible via the main bar or pressing Ctrl+Space on the keypad.

4 Workspaces

Click on one of the links under Markets, Asset Class or Tools to open a specific workspace.

5 Open new workspace

Click on the + to open a selection menu for opening user-specific or empty workspaces

6 Tools

Specific workspaces and windows designed for targeted activities and departments.

7 Dedicated Content

Quickly access content provided by third parties and news agencies.

8 Discover

Access help and user manuals as well as our contact details, product news and further information.

9 System Messages and Watchdog

Get all messages from the system as well as from Watchdog.

Features

Multi-window management: The multiple window option lets you drag and drop windows wherever you want them. You can open multiple workspaces across multiple monitors at the same time.

Always on top windows: Keep a window always visible or in the foreground of your screen. You can easily work on other files/applications while keeping track of market activity.

Active look-up: Take immediate action on your securities look-up, by selecting Quote, Chart, News, Instrument or Company to show the desired content.

Combined Search: combines "SIX iD Search" with additional limiting options in the "Search" window. The results list is divided into the data categories Quotes, Instruments, Companies, News and Markets. A maximum of three entries are displayed for each data category.

How to

Set up preferences

Under the SIX iD Menu , click on "Settings".

1. Change the parameters according to your needs and click "Save".

Tip 1: Set up a first and second e-mail address under the subtab "General", which can be used to notify you when limits are exceeded or not achieved.

Tip 2: Select your preferred securities identification system under the subtab "Search / VDB" (e.g. Swiss Valor no., WKN, ISIN).

Tip 3: Set up the Export/Import folder's path under the subtab "Advanced".

Use search keyboard shortcuts

1. When in a window, press the SPACE key to trigger a search.
2. Ctrl + SPACE will trigger the SIX iD Lookup wherever you are in SIX iD.
3. Strg+Enter after entering a search term in the search entry box on the SIX iD top bar, a combined search window will open.
4. Ctrl+Shift+Space will open a quick search.

Use combined search

1. Click on next to the search bar to open the drop-down menu. Enter your search term.
2. Click on the grey "Search for" area beneath the search entry box or press Strg+Enter on the keypad
3. The results list is divided into the data categories Quotes, Instruments, Companies, News and Markets.

Compile a new lists

1. In the SIX iD main menu click on "New" and then on "Standard List" or enter the shortcut .LIST in the search entry box of the SIX iD top bar. An empty "List" window opens.
2. Select the instrument you wish to be displayed by dragging and dropping from an existing list, or by using the search window.
3. Change the structure of the list by choosing a new style. Click on the menu item "Preferences" in the window main menu of the "List" or "All Sources" window or press Ctrl+R. The "Preferences" window appears with all defined styles.
4. Save your list as a user list. To do this, click inside the active area of the window, then click on "Save" and then on "Save List As".

Create Workspaces

1. Click on the + on the right of the open Workspaces tabs. An empty workspace is opened.
2. Add lists as indicated above.
3. You can add various windows to the new workspace, such as Charts, News, Order book, Instrument details, Derivatives, etc.
4. Click on the window main menu on "Save Workspaces", then "Save Workspace As...".
5. Enter a name and click "OK".

Tip 1: To cancel a change in a workspace, click on the arrow in the relevant Workspace tab and choose the "Revert to save" option.

Tip 2: You can link/delink between windows by clicking on "Linked" within that viewer. Activating it will allow the viewer to receive data from a quote list.
