

Migration of Euroclear Finland settlements to the new “Infinity” system – Update

1.0 Overview

SIX x-clear is a direct participant of Euroclear Finland connected via SIX SIS. With the implementation of Infinity Release 2, Euroclear Finland is migrating Finnish equity market settlements from its current application "HEXclear" to the new "Infinity" system. The earlier migration plan on 12 February 2018 was postponed.

2.0 Effective date

7 May 2018.

3.0 Impact on participants

There is no change to the standard settlement instruction (SSI) details of SIX x-clear Ltd for Euroclear Finland.

Clearing Members have to submit x-clear's "Settlement standing instruction (SSI)" form (Form 002C for SECOM / Form 002E for CLARA) by 30 April 2018 if there is any change in their SSIs for Euroclear Finland with Infinity Release 2.

4.0 Details

4.1 Migration approach

x-clear will hold back its settlement instructions for the trade dates 3 May (Thursday) and 4 May 2018 (Friday) and will release its settlement instructions to the new Infinity system on 6 May 2018 (Sunday) only after Euroclear Finland has taken the "Go decision" for the Infinity system. x-clear's counterparties have to match against x-clear's instructions in the new Infinity system for the trade dates 3 and 4 May 2018.

The pending settlement instructions with trade dates prior to 3 May 2018 will not be migrated to the Infinity system by Euroclear Finland, and these will be re-instructed by x-clear on 7 May. x-clear's counterparties have to re-instruct their leg of the pending settlement instructions and match against x-clear's ones in the new Infinity system.

4.2 Member reporting

There is no change to the Member reporting approach of x-clear. x-clear will send the copy of the settlement instructions to the Members' settlement agent (POA instructions) and settlement instructions report for the trade dates 3 May 2018 (Thursday) and 4 May 2018 (Friday) as per the standard reporting schedule.
