Adjustment to price list SIX x-clear Ltd (CLARA) – valid as of 1 July 2019

1.0 Change of pricing for SIX x-clear Ltd clearing transactions (cash products)

SIX x-clear Ltd is introducing new pricing for clearing transactions of cash products, applicable for new customers and all Members without a flat price of CHF 0.0050 per transaction from new trading venues (hereinafter referred to as “old onboarding agreement”).

SIX x-clear Ltd Members with an ongoing old onboarding agreement can choose between the following two options:

1. Taking no action: As a consequence, the old pricing continues to be applied until all old onboarding agreements expire. At the same time, this means that no new onboarding agreement (details in table below) can be entered into.
2. Terminating their old onboarding agreement in writing by the 20th of a month with effect as of the end of the month. After this voluntary waiver of the old onboarding agreement, the new tariff (without new onboarding agreement) will be charged from the following month onwards.

	Prerequisites for entering into an onboarding agreement	No ongoing old onboarding agreement: New volume from the onboarding of new trading venues	Not possible (old onboarding agreement no longer available)

¹⁾To ensure continued trading venue neutrality, SIX x clear Ltd has decided to exclude the Oslo Børs market/segment from consideration for an onboarding agreement.

For the new pricing (see middle section), the entire clearing transaction volume of the Member's client group is always considered (i.e. including any "new volume" from the onboarding of new trading venues).

1. Taking the entire client group volume, every tier of the above pricing model has to be passed through to compute the applicable average transaction price. The applicable average transaction price is then applied across all clearing transactions of the Member.
2. On any "new volume" from the onboarding of new trading venues, the Member will benefit from a 25% discount on the applicable average transaction price (new onboarding agreement).

Please see the following sample for easy reference:

- Input assumptions: Total client group volume of 3.5 million clearing transactions, broken down into existing volume of 2.5 million transactions and "new volume" of 1.0 million transactions.
- Calculation of applicable average transaction price:

Tier 1:	150,000 trx at CHF 0.0800 =	CHF	12,000
Tier 2:	350,000 trx at CHF 0.0400 =	CHF	14,000
Tier 3:	2,000,000 trx at CHF 0.0150 =	CHF	30,000
Tier 4:	1,000,000 trx at CHF 0.0070 =	CHF	7,000
Total:	3,500,000 trx	CHF	63,000

Applicable average trx price = CHF 63,000 / 3,500,000 trx = CHF 0.0180 p/trx

- Calculation of transaction price according to onboarding agreement for "new volume" (i.e. from the onboarding of new trading venues):

Onboarding agreement trx price = CHF 0.0180 x (1 - 25%) = CHF 0.0135 p/trx

<i>"New volume"</i>	1,000,000 trx at CHF 0.0135 p/trx =	CHF	13,500
Total clearing fee charges of the month		CHF	58,000
